MOTOR OILS

Company Overview

Barekat Trading Company started the production and supply of motor oil and its industrial and non-industrial derivatives, to have an effective presence in the regional and global markets. Using the latest knowledge and experience of the world and equipped machines, this company produces and markets its various products with incredible quality. Barekat Trading Company uses high quality raw materials with marketable oil base to produce its products. The products are continuously tested in reputable laboratories and their quality is guaranteed from the beginning of the production process.

This company operates in different districts of the Middle East. Barekat Trading Company is dedicated to providing quality products with a competitive price and a level of service designed to ensure customers' satisfaction. For us, it's not just about selling our product, but about serving a wide range of products that have earned reputation for excellence. It is hoped that the activities and efforts of the company will satisfy customers and will keep a safe and easy shopping memory for them.

Business Description

Barakat Trading Company operates in the field of development, marketing and sale of motor oil and its industrial and non-industrial derivatives. The company's products are offered in four categories: base oils, engine oils, transmission oils, and industrial oils. The company also produces and sells its products for specific purposes, some of which are produced based on the needs and tastes of customers. A good lubricant can ensure the optimal operation of machinery and equipment; about 55% of premature machine failures are due to the use of improper lubricants. Each lubricant consists of a base material to which various additives are added. This base material, which affects some of the properties and characteristics of the oil, can be minerals (of petroleum origin) or synthetics. Barakat Trading Company ensures to provide customers with high quality lubricants.

Having good oil resources and high-quality raw materials, the Middle East has a very high potential in this global industry. As a result, motor oil and its industrial and non-industrial derivatives are widely produced and supplied in this area and highly demanded around the world. Barakat Trading Company is proud to have taken steps in this path. It sells its products through wholesale and retail stores, as well as distributors and agents around the world. Our company executives supervise the manufacturing process from headquarters in the Middle East. This constant supervision is done to honor the name of the company and to ensure maintaining its constant quality.

Vision and Value

Barekat Trading Company will be a pioneer, knowledge enterprise, and a leading group that will use the latest technologies to produce high quality products. Maintaining the quality of the products, enjoying experienced and knowledgeable experts, as well as using the latest technologies in the world, Barakat Trading Company will increase its product diversity and will expand its work domain in domestic and foreign markets via modern marketing and sales methods. The company will use all its efforts to satisfy customers by providing after-sale services and constant technical support to establish its position as one of the most popular brands in the production of high-quality motor oil.

Mission and Targets

Barakat Trading Company intends to expand the trade level of industrial and non-industrial oils and introduce quality products to other countries of the world. In this regard, the goals and missions of the company are defined as follows:

1. Using high-quality raw materials to produce world class products
2. Using the latest technologies, modern scientific methods and equipment

3. Applying constant supervision over the stages of production to maintain the highest quality
4. Optimizing current products via the help of experienced professionals and experts
5. Adopting the best modern policies for sale
6. Creating new and innovative markets
7. Maintaining a competition in the market based on competitive prices
8. Observing the regulations of export and import of goods to the destination countries

A Message from CEO

The most significant business principle for Barekat Trading Company is to gain customer satisfaction, and we will make every effort possible to completely satisfy our dear customers. The company puts all its efforts to ensure the quality of its products using modern equipment, continuous monitoring, experienced experts, on time delivery of the goods, in order to provide the most convenient condition for customers to purchase their products with the highest level of convenience and satisfaction.

Products and Services

Base oils:

- First hand base oils (Virgin):

1. Mineral base oil
2. Synthetic base oil
3. Semi-synthetic base oil

- Refined base oils (recycle)

Engine oil (industrial and non-industrial):

Car lubricants:

- Engine oils:

1. Gasoline car engine oils (in different types and properties)
2. Diesel car engine oils (in different types and properties)
3. Rail motor oils (in different types and properties)

- 4. Marine engine oils:
 - a. Motor boat
 - b. Cylinder (two-stroke)
 - c. System (two stroke)
 - d. Trunk-piston (medium speed)
- 5. Gas and dual fuel engine oils (in different types and properties)
- 6. Industrial fixed engine oils (in different types and properties)

- Transmission system oils:

1. Manual gear oils: Different types of these oils can be used in all non-automatic gearboxes of light and heavy vehicles and other vehicles.
2. Automatic gear oils: Different types of these types of oils can be used in all automatic gearboxes and hydraulic steering boxes of all types of vehicles.

Industrial oils:

- Circulating and hydraulic oils:
 1. Hydraulic and circulating fluids
 2. Fire resistant hydraulic fluids

- Turbine oils
- Industrial gear oils and rolling operations
- Compressor oils
- Heat transfer oils
- Heat treatment oils
- Transformer oils
- Oils for metalworking and cutting operations
- Machine tool oils

- Oils for agricultural and off-road machinery:
 1. UTTO model oils
 2. TDTO model oils
 3. STOU model oils
- Washing oils
- Textile oils
- Process oils
- Protective oils

Services

1. Free technical support by company experts to obtain the necessary information for a safe purchase
2. Providing products with technical certificates and approvals from reputable laboratories
3. Using the fastest and safest ways to deliver products to customers
4. Observing all the rules and protocols of safe storage and transportation
5. Guaranteeing the quality and the price of the products for customers compared to other brands
6. Conducting all affairs related to licenses for export and import to and from different countries

It should be noted that all the oils offered in this company are made with the best raw materials and modern equipment and have succeeded in obtaining numerous quality certifications from European countries.

Delivery and Payment

Considering the fact that the Middle East provides access to a variety of transportation routes, including rail, sea, land and air, goods are exported to different countries effortlessly and promptly. Foreign traders can always discuss the issue with our experts if they need a certain route to transfer goods. Due to having multiple foreign currency accounts under the company name, and natural persons approved by the company, we suggest Telegraphic Transfer. You can also discuss your desired payment method with our experts.
